PROFILE

Front End and PHP Developer with two years of experience in developing and designing applications. I have a proven track record of using my strong programming and communication skills to successfully execute projects and meet client needs. I work well in a team environment and possess excellent organizational skills and a strong drive for learning and development. I also have a good understanding of Node.js, which enhances my ability to work in diverse development environments.

WORK EXPERIENCE

Wish Arabia   09/2023-05/2024
Full Stack Developer

- • Experienced Full Stack Developer with expertise in frontend and backend technologies, responsible for designing, developing, and maintaining web applications. • Developed and maintained web applications using JavaScript, HTML, and CSS. • Collaborated with UI/UX designers to translate designs into functional web applications. • Implemented server-side logic using Node.js and Express framework. • Designed and managed databases using SQL and NoSQL databases like MongoDB. • Ensured responsiveness and cross-platform compatibility of applications. • Debugged and optimized existing code for performance and scalability. • Participated in code reviews and adhered to software development best practices

◆ **Web Developer & Designer** – **Mena Tech (11/2024– Present)**

- Developing and customizing Moodle platforms, including creating plugins and blocks .
- Working in a Ubuntu Live Server environment using Nginx and MariaDB to manage and host Moodle.
- Designing and developing user interfaces (UI) using Mustache templates and custom renderers to create Udemy-like course pages.
- Managing databases with SQL Management on Windows and optimizing queries for better performance.
- Installing and configuring Moodle 4.2 from backups, including moodledata, Moodle files, and SQL databases.
- Integrating AI solutions with Moodle via Exist AI, ensuring compliance with company restrictions.
- Enhancing Moodle's user experience by customizing the Edvik theme and adding new features.
- Training teachers on course design and management in Moodle.
